Donella,

We submitted the SEPA Checklist and Conditional Use Permit Application for the proposed Olympic Disposal Transfer Station located off of Business Park Loop in the Carlsborg Industrial Area last Tuesday, November 16<sup>th</sup>. Any references to Sequim are with respect to location, not ownership or operation of the proposed Transfer Station which will be solely by Olympic Disposal. We are writing this email to you as a point of clarification so there is no misunderstanding regarding the owner/operator of the facility.

Thank you,

Kathy A. Hargrave, P.E., LEED AP®  
Principal

Donella,

Municipal solid waste material is removed from the site daily and the tipping floor is typically cleared of all municipal waste daily. The material is loaded into transfer trailers and tarped inside the Transfer Station Building prior to being staged outside the building until a truck is available. This material is transported to a solid waste landfill located outside of Clallam County.

Recyclables will have a dedicated bay for collection inside the Transfer Station building. Recyclables will similarly be loaded into transfer trailers and tarped inside the building prior to being removed from the site when a load is generated.

These activities occur when the facility is open between 7 AM and 7 PM.

Thank you,

Kathy A. Hargrave, P.E., LEED AP®  
Principal

Thank you Kathy. I did have an additional question as I was reviewing the information, and I may just not have gotten to it yet. How often do they offload materials from the site? What does that process look like? Does it happen while the facility is open? After hours?  
Thank you for this information.

Donella,

The proposed Transfer Station and Community Recycling Facility will NOT accept any Household Hazardous Waste.

We have requested a Water Availability Letter from Clallam County PUD No. 1 for fire protection water in the amount of 2,500 gallons per minute for 2 hours. So far, we have not received the requested Water Availability Letter.

We hope this provides clarification for the Fire District and the Fire Marshall in advance of the Hearing for the Conditional Use Permit.

Thank you,

Kathy A. Hargrave, P.E., LEED AP®
