

CLALLAM COUNTY DCD

EXHIBIT 26
DATE 2/3/2022

DATE: December 23, 2021
TO: Donella Clark
FROM: Jesse Goodman (Development Review Engineer)
SUBJECT: Olympic Disposal Waste Transfer Station
(PSD2021-00003)

Comments from the Clallam County Roads Department regarding review of traffic study (11/3/2021) and proposed ODT crossing:

1. The proposed crossing of the Olympic Discovery Trail between the two parcels is not acceptable. This is due to safety concerns for the trail using public and the presence of an existing route using public roads for vehicles to travel between parcels. If a connection between the two parcels is to be pursued, we would be happy to discuss alternative routes for the trail on the north side of parcel: 043015410125.
2. The traffic study (11/3/2021) provided does not project sufficiently far into the future, nor does it address all affected intersections in close proximity. We require a 6-year and 20 year projection, assuming reasonable buildout, for the intersection at the north end of Business Park Loop and Carlsborg Road, including data from Savannah Lane and Village Lane to the west. The SB left turn lane on Carlsborg Road which provides access to Business Park Loop is currently slated to be re-striped as a 2-way left turn lane to provide access to future development on Savannah/Village Lane. This change could create additional congestion/conflicts at the intersection. The projected traffic from Savannah/Village Lane does not appear to be addressed in the traffic study (11/3/2021).
3. The provided traffic study (11/3/2021) shows all vehicles entering and exiting the facility from the northern Business Park Loop intersection. If this changes, we will require a 6-year and 20 year projection, assuming reasonable buildout, for the intersection of the south end of Business Park Loop and Carlsborg Road.

Until we receive this information we cannot complete our analysis about potential traffic mitigation measures.

Please feel free to contact Jesse Goodman (360-417-2530) or at jgoodman@co.clallam.wa.us to with any questions.
